

Torrent Player

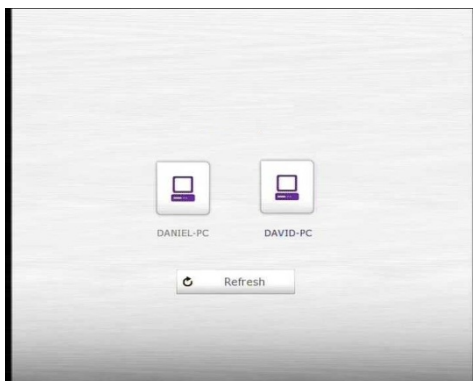

✓ How to Use Torrent Player

Torrent Player enables you to share the downloaded contents via Torrent program from your PC. By running Bit torrent program and by downloading torrent file in your PC, you will be ready to use this function. You can download bit torrent program for PC as following website and this process should be preceded before using this function.

<http://www.bittorrent.com>

1. How to sync with your PC

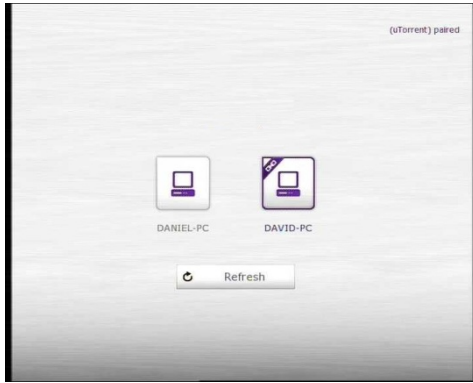

- Receiver and PC should be connected in same local network.
(By checking your gateway information, you can learn it)
- Run Torrent Player in your receiver.
- Torrent Player will find your PC automatically in few seconds then, you will see PC list on your screen.

- After choosing your PC, you will see PIN code on your screen. Please input this code on your PC to pair both receiver and PC.

- If Pairing is successful, you will see the paired message on the right upper side of your screen.

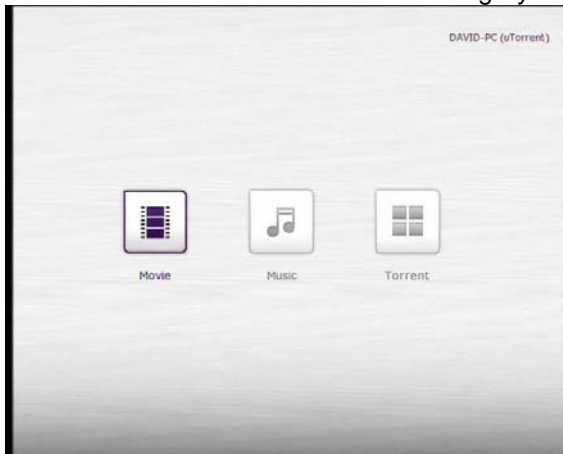

< Note >

- If there are many PC's that you would like to share in your local network, you can make paired PC more and more at the same time.
- By pressing red button, you can stop pairing with specific PC.

2. How to USE

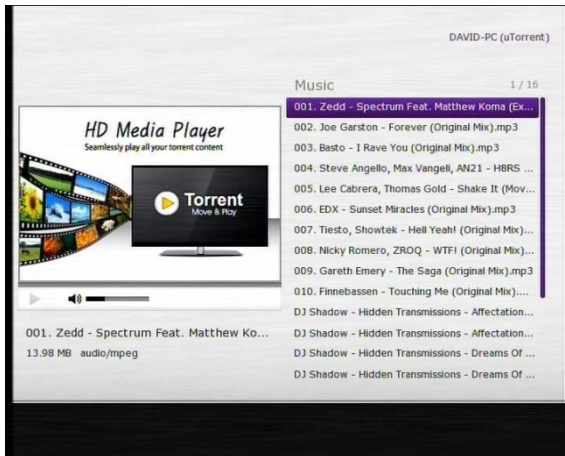

- You will see Movie / Music / Torrent category if the receiver and PC are paired successfully.

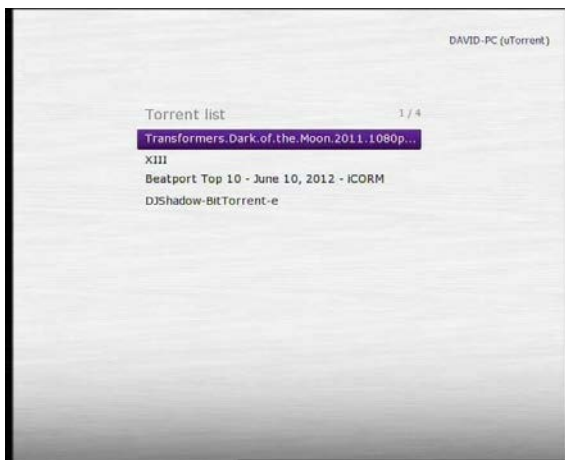

- Movie category shows you all movie list that could be played in receiver among downloaded contents via torrent from your PC.

- Music category shows you all music list that could be played in receiver among downloaded contents via torrent from your PC.

- Torrent category shows you all downloaded contents via torrent from your PC.

- The list you download on your PC should be kept in torrent program. If this list is deleted, you can not see any list on your receiver.
